

Primary School PE and School Sport Funding 2013 - 2015

Oakham C of E Primary School

The Parks School

Introduction

The Government has introduced the **Primary School PE and School Sport Funding** as a way of improving the quality and breadth of PE and sport provision. Funding is allocated to all maintained and state funded schools for primary phase pupils. The funding is provided for two years to increase participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels that they are capable of. This funding is currently at £8000 per academic year per school with £5 per pupil top up. The funding is ring fenced and is only to be spent on PE provision.

Funding Allocation

The amount of Pupil Premium funding for Oakham CofE 2013 – 2015 is £18,560. The Parks School received £208. This funding is then budgeted for the following approximate costing:

- Staff CPD - £10000
- Sport participation (Inc Judo/Spotlight Dance) - £1000
- Additional Provision - £4000
- Transport - £1200
- Resources - £2500

Provision	Outcome	Update	Update
		(Term 1 2014)	(Term 6 2015)
Staff CPD	<p>To support staff to deliver Good - Outstanding teaching within the PE curriculum.</p> <p>Staff improve own subject knowledge to show pupils step by step process of stages of learning new skills and how to apply skills in different activities and situations.</p> <p>Questioning of pupils checks their understanding and provides good advice of how to obtain high levels of performance.</p> <p>Teaching generates high levels of engagement and commitment.</p>	<p>All teaching staff have now completed a six week block of hands on Gymnastics training as well as at least one extra training course (suited to their individual areas for development) to support their delivery of PE lessons.</p> <p>We have purchased a complete set of schemes of work to support planning and assessment of PE for the whole school.</p> <p>One year 5/6 class took part in the 'Chance to Shine' cricket programme where professional coaches came to work with the children for a term and provided teachers with training at the same time.</p> <p>Following a recent audit, an increase in staff confidence levels in delivering the different areas of the PE curriculum was seen.</p> <p>TAs have all taken part in half a day of training on playground games to encourage</p>	<p>All teaching staff have now completed a six week block of hands on Dance training and some staff have completed at least one extra training course (suited to their individual areas for development) to support their delivery of PE lessons.</p> <p>Staff are regularly using the scheme of work to support their planning and feedback has been very positive from teachers. From a recent pupil survey the children reported that they had opportunities to take part in a variety of sports and developed their skills during their PE lessons.</p> <p>Key Stage 2 classes were given the opportunity to take part in a 'Science through Dance' workshop where they learnt about a scientific topic through the medium of dance, delivered by a troupe of professional and qualified instructors.</p> <p>Teachers were allowed to observe and it</p>

children to play positively at break times and lunchtimes.

provided them with ideas and training.

From a recent pupil survey all children agreed that they enjoy their PE lessons. Teachers have reported that fewer children are forgetting to bring in their PE kits.

Sport Participation

Provide breadth of activities that all children can enjoy and participate in.

Offering opportunities to showcase a particular skill/attribute and to continue enjoying and participating in an activity.

The long term planning has been updated so that it is in line with the new curriculum and to ensure that a broad range of skills are continuing to be taught in a range of sporting contexts.

Last year we entered 20 of the Primary School Games sporting competitions, where we came 2nd in two events and 3rd in one event, finishing 9th overall in the Primary League. We also entered extra local competitions on top of this, including the football league, spotlight dance and the cross country league.

Year 3 and 4 took part in a triathlon last

Long term plans are being utilised to ensure that a range of sports are being covered. From the pupil survey, children are happy that they are able to experience a variety of sports.

We placed 13th on the Primary School Games league table. Once again we have entered the extra local competitions as we did the previous year. We have also won a gold medal for the Boys Football Team and the Year 4 boys won the winners shield for cross country and represented Rutland at county level.

Year 5 and 6 took part in the Kids of Steel

year where all children were able to bike, run and swim their way to the finish line. Since this we have been informed that one boy has gone on to join the Ketton Cross Country club and has entered in to more triathlons where he is doing very well!

Year 3 took part in six judo sessions last year where they were then given the opportunity to see what judo was like and then they were given the possibility of joining the club to continue practising their skills.

Triathlon in May and were very excited about this event. We will hopefully enter again next year as the feedback was very positive from staff and children alike.

The Year 3 children took part in a Judo taster session to see if it would be something they would be interested in pursuing outside of school.

We have chosen two Year 5 girls as our Young Sports Ambassadors. They have run a lunchtime club for Year 1 pupils where they played a variety of sports with them, as well as help train the gymnasts for their competition in February. They have also attended 5 sessions at USSC and are due to help run the Key Stage 1 Multisport festival in October (rescheduled from May).

Extended school/additional provision

Increase pupils participation levels during lunch time and after school.

Raise awareness and promotion of healthy lifestyles.

New lunchtime activities have been introduced, including the use of sports coaches to deliver a variety of sports sessions and games to all of the children.

Forest school skills are also being taught in the sensory garden.

Archery and basketball clubs are being offered at lunchtimes by Premier Sports. Tennis and hip-hop classes are being offered after school. This is on top of the free after school clubs which have run in previous years.

Provide qualified adult led instruction during lunch/after school sessions.

School footballs have been purchased for the children to use during break and lunch times.

Mrs Owers continues to deliver a healthy cooking session once a week and the gardening club are using the grounds to plant and grow fruits and vegetables.

Along with the new lunchtime activities, brain gym breaks have now been introduced in to the classrooms, where children are encouraged to have short active breaks to aid their learning and help to keep them fit and healthy.

We have already signed up for free football sessions with a qualified coach from FA Skills in September. It will consist of 7 weeks of 2 x 1 hour sessions.

After school activities are continuing to be offered by staff members and external agencies. An increase in participation has been seen already this year. 45% of children in Key Stage 2 and 23% of children in Foundation Stage or Key Stage 1 are taking part in at least one sporting after school activity this term.

Mrs Owers is now teaching children about healthy eating and cookery skills two afternoons a week.
